## SUMMARY

Security operations professional with **4+ years** across managed security services, fintech, and global enterprise environments — spanning SIEM operations, incident investigation, phishing response, and endpoint containment. Currently investigates and coordinates incident response and privacy escalations at **Eviden (Atos Group)**, building on IBM QRadar administration experience within a **150+ customer MSSP** and high-volume alert investigation at a card-processing SOC. **CompTIA Security+** and **AWS Certified Cloud Practitioner** certified. Actively transitioning this security-operations foundation toward **AI application security** — self-directed study of the **OWASP Top 10 for LLM Applications** and **MITRE ATLAS**, paired with hands-on AI-assisted prototyping — while continuing to operate as a working security-operations practitioner.

## SKILLS

**Core Security Operations:** Incident Investigation, Alert Triage & Escalation, Phishing Analysis, Endpoint Containment, DLP Operations, IOC Enrichment, Operational Reporting, SIEM Administration

**Platforms & Tools:** IBM QRadar, Splunk Enterprise Security / Splunk Cloud, Microsoft Sentinel, CrowdStrike Falcon, Carbon Black Cloud, Microsoft Defender for Office 365, Trellix DLP, Symantec DLP, Recorded Future, Joe Sandbox, ServiceNow, Jira, PowerShell, Linux CLI

**Developing — AI Security (self-directed, not yet applied professionally):** AI-assisted prototyping, Python scripting, workflow automation, OWASP Top 10 for LLM Applications, MITRE ATLAS

## EXPERIENCE

### Consultant, Security Operations | Eviden (Atos Group)

Feb 2025 – Present · Pune, India (Remote)

- Investigate **4-5 phishing cases per month** using **Microsoft Defender for Office 365**, documenting findings and coordinating containment, remediation, and privacy escalation with the relevant teams.
- Coordinate incident handling **end to end** — from alert review through closure — partnering with technical and business teams to keep cases moving to resolution.
- Execute endpoint quarantine and controlled release through **CrowdStrike Falcon** following investigation and required authorization.
- Manage **Trellix DLP** alerts and bypass requests, validating business justification before completing approved actions.
- Prepare a **monthly operational matrix** covering incidents, alerts, and service tickets for management review and trend visibility.

### Information Security Analyst | TSYS Card Tech Services India Pvt. Ltd.

Aug 2022 – Feb 2025 · Pune, India

- Investigated **80-100 security alerts per day at peak**, correlating endpoint, firewall, Windows, and IPS/IDS activity through **Splunk** and supporting security tools.
- Analyzed suspicious files, URLs, and indicators using **Joe Sandbox**, **Carbon Black**, and **Recorded Future** to support threat validation and response.
- Performed authorized endpoint quarantine and return to service through **Carbon Black Cloud**, coordinating high-impact actions with management before execution.
- Improved daily **Goal-Task-Action** allocation and ownership tracking, helping reduce duplicate investigation effort and strengthen accountability across the team.

- Shared recurring false-positive findings with the SIEM administration team, supporting alert-tuning decisions and more consistent investigation workflows.

## SIEM Platform Associate – Security Platform Engineering | SecurityHQ

Feb 2022 – Aug 2022 · Pune, India

- Supported **IBM QRadar** operations across assigned client environments within an **MSSP serving 150+ enterprise customers**, handling log-source troubleshooting, scheduled reporting, and platform issue resolution.
- Investigated non-reporting log sources, diagnosing connectivity and service issues and coordinating resolution to restore log visibility for affected clients.
- Delivered daily, weekly, and monthly **QRadar** reports for clients and management, supporting operational visibility across the multi-tenant environment.
- Supported **24x7 SOC operations** through QRadar health checks, service troubleshooting, and escalation according to established procedures.

## PROJECTS

---

### Orbit — AI-Assisted Application Prototype

- Developed an interactive prototype in **approximately 10 days** by defining requirements, directing AI-assisted development with **Claude Max**, and iterating on dashboard layouts and workflows.
- Combined goals, habits, tasks, finance, journaling, and wellbeing tracking with manual data entry and basic cloud persistence, demonstrated with sample data; in-app AI, external integrations, and advanced privacy architecture remain planned.

### Personal Portfolio — richesh.top

- Created and deployed a professional portfolio through **Vercel**, configuring a custom domain and DNS, to showcase security-operations experience and the Orbit prototype.

## CERTIFICATIONS

---

- **CompTIA Security+ (SY0-601)** — CompTIA · Oct 2023 – Oct 2026
- **AWS Certified Cloud Practitioner (CLF-C02)** — Amazon Web Services · Aug 2024 – Aug 2027

## EDUCATION

---

### Bachelor of Computer Applications (BCA)

Swami Ramanand Teerth Marathwada University, Nanded · 2018 – 2021 · Grade: A+

## LANGUAGES

---

English · Hindi · Marathi
